BIOGRAPHICAL STATEMENT

Jennifer Tanner is an applied developmental scientist (Ph.D., Human Development & Family Studies) whose theoretical and empirical work takes a multidisciplinary approach to the study of development, psychopathology, and mental health in emerging adulthood, ages 18 and 29. Dr. Tanner's research has investigated the role of various factors (e.g., IQ, family divorce, suicidal ideation, early mental health problems, parent-adolescent relationships, risk, and vulnerability) in determining health and mental health outcomes in emerging adulthood through midlife. In 2002, she co-founded the Society for the Study of Emerging Adulthood and in 2012 established the journal *Emerging Adulthood* (Sage), fulfilling the goal of bringing together international scholarship on development and adaptation during the late teens and twenties. In her work at Rutgers University as a Research Visiting Assistant Professor at The Institute for Health, Health Care Policy and Aging Research, Dr. Tanner conceptualized a theoretical framework of emerging adult development and mental health and analyzed social policies related to emerging adults' access to health care. Prior to that, in her role as Co-PI (NIMH) of the Simmons Longitudinal Study, Dr. Tanner analyzed longitudinal trajectories of health, mental health, and psychopathology in a community sample of individuals from age 5 through age 30. Currently she serves on multiple editorial boards and makes professional contributions as a reviewer and as a member of numerous advisory committees. As editor of the professional practice journal, *Yellowbrick Journal*, she publishes cutting-edge assessment, diagnostic, and treatment information for mental health professionals working with emerging adults. Forthcoming in 2014, she will publish the edited volume, *Developing Mental Health in Emerging Adulthood* (Oxford University Press) and the textbook, *Visualizing the Lifespan* (Wiley). Her plans for future work include developing an assessment model of emerging adult development and mental health for use in applied settings (e.g., community and hospital mental health settings, primary care, college counseling centers), developing programs designed to promote healthy emerging adult development and adjustment, and advocating for social policies that support healthy development and adjustment through emerging adulthood.

EDUCATION

Ph.D.	2001	Human Development & Family Studies The Pennsylvania State University
M.S.	1998	Human Development & Family Studies The Pennsylvania State University
B.A.	1995	Psychology, <i>summa cum laude</i> University of Massachusetts Amherst

PROFESSIONAL POSITIONS HELD

Founder and Executive Director: 2009-present

Develop Institute, www.developinstitute.com Mountain Lakes, NJ. In 2009 I founded Develop Institute, LLC dedicated to the *accomplishment and delivery of developmental science to improve lives*. We conduct, review, and translate developmental science and deliver programs, papers, trainings, and consultations to clients.

Visiting Research Assistant Professor: July 2008 to 2011

[**NIMH Postdoctoral Fellow:** July 2006-June 2008]

Institute for Health, Health Care Policy and Aging Research (IHHCPAR) Rutgers University, New Brunswick, NJ. Conducted focused work on social and health vulnerabilities among young adults, individuals between the ages of 18 and 29, in collaboration with IHHCPAR Director, Dr. David Mechanic. Participated as a team member to analyze New Jersey legislation aimed at reducing uninsurance among emerging adults, at The Center for State Health Policy with Center Director, Dr. Joel Cantor.

Consultant: 2009-2011

Venn Center, www.venncenter.com Ridgewood, NJ. I design programs and oversee service adherence to the Venn Center Mission: *using psychiatry, psychology, and education to promote mental health and human development*. I provide

J. Tanner

consultation to the Executive Director, child, adolescent, and adult psychiatrist, Dr. Steven Wruble to integrate developmental objectives into the clinical, mental health services offered to his clients. Together we write and deliver programs and lead groups designed using a clinical-developmental approach.

Research Assistant Professor: *March 2005 to August 2006*

[**Senior Research Associate:** *August 2002 to March 2005*]

Simmons College, School of Social Work: Simmons Longitudinal Study, Boston, MA Served as Co-Investigator for NIMH-funded 28-year longitudinal study of mental health, psychiatric disorder, and adaptation from ages 5-30. Served as primary data analyst; managed and supervised research staff; authored and co-authored project publications, progress reports, and grant proposals. Principal Investigator: Helen Z. Reinherz, Sc.D.

Data Analyst: *March 2001 to July 2003*

Harvard University, Murray Research Center: Binuclear Family Project, Cambridge, MA Managed data and conducted data analysis for a four-wave longitudinal study of families of divorce. Assisted Dr. Ahrons in all stages of book preparation including serving as principal data analyst for *We're still family: What grown children have to say about their parents' divorce* (2004, HarperCollins). Principal Investigator: Constance Ahrons, Ph.D., MSW

Postdoctoral Research Associate: *August 2001 to April 2002*

Tufts University, Eliot Pearson Department of Child Development, Medford, MA Co-constructed a conceptual model, measurement model, and sampling framework to guide a four-year longitudinal study of positive youth development. Supervised graduate and undergraduate research assistants. Completed project-related writing projects. Principal Investigator: Richard M. Lerner, Ph.D.

Graduate Student Fellow: *November 1996 to December 2000*

The Pennsylvania State University, State College, PA. Managed and analyzed data from two longitudinal studies: *The Michigan Study of Adolescent Life Transitions* and *Childhood and Beyond* (Jacqueline Eccles, Ph.D., Principal Investigator) each consisting of multiple waves of data assessing adolescent development, family functioning, parental values, and educational outcomes. Collaborated with teams of researchers, conducted analyses, and presented data. Assisted in grant writing, managed data collection, and analyzed data from a nine-wave, three-generation (midlife parents, young adult children (target sample), and offspring), longitudinal research project.

Supervised and directed a team of undergraduate researchers. Principal Investigator: Janis E. Jacobs, Ph.D.

Graduate Student Researcher: *July 1996 to October 1999*

Family Relationships Project The Pennsylvania State University, State College, PA Assisted in design and data collection on a short-term longitudinal study of family relationships. Conducted extensive home and telephone interviews with adolescents and their families. Assisted in data management and analysis, managed undergraduate research teams, coded structured interview data, coded WSCT protocols, analyzed, and presented data. Principal Investigators: Ann Crouter, Ph.D. and Susan McHale, Ph.D.

Data Analyst: *January 1999 to November 2000*

The Pennsylvania State University, State College, PA Conducted evaluation analyses for a federally funded intervention focused on knowledge development among an African-American, inner-city student population. Principal Investigator: Sharonda Poma, M.S.

Principal Investigator: *January 1998 to October 1999* The Pennsylvania State University, State College, PA Developed a three-phase evaluation of an undergraduate internship program. Assessed vocational identity development and antecedents of young adult well-being during the transition to adulthood. Responsible for all phases of data collection, coding, analysis, and follow-up. Independently developed coding schemes to code qualitative data.

Data Analyst: *December 1997 to January 1999*

The Pennsylvania State University, State College, PA Analyzed and provided data analysis reports for a federally funded study of rural adolescent mothers. Principal Investigator: Judith Vicary, Ph.D.

Evaluation Consultant: *January 1997 to June 1998*

The Pennsylvania State University, State College, PA Conducted an analysis of a short-term intervention program which targeted adolescent decision-making processes. Collected, coded, and analyzed three waves of data. Principal Investigators: Susan McHale, Ph.D. and Janis Jacobs, Ph.D.

Principal Investigator: *September 1993 to May 1995*

University of Massachusetts at Amherst, Amherst, MA Proposed and conducted an original intervention; *College adjustment and retention in first-year students*. Independently collected two waves of evaluation data and completed data analysis, write-up, and oral defense. Advisor: Susan Whitbourne, Ph.D.

TEACHING INTERESTS

Life Span Development; Theories of Human Development; Basic & Advanced Statistics (Multivariate; Longitudinal); Methods; Adolescent Psychology; The Transition to Adulthood; Developmental Psychopathology; Family Development

TEACHING EXPERIENCE

Adjunct Professor, Department of Psychology & Counseling, Fairleigh Dickinson University
Fall 2013: Diagnosis & Treatment Planning (Graduate)

Adjunct Professor, Department of Psychology, Drew University
Spring 2009 Course: Life Span Human Development

Adjunct Professor, Department of Psychology, Fairleigh Dickinson University
Spring 2008-Spring 2009: Abnormal Psychology: Diagnosis & Assessment (Graduate)

Adjunct Professor, Department of Counseling, Developmental and Educational Psychology,

Boston College

Fall 2001-Fall 2005 Course: Adolescent Development: The Psychology of Adolescence (Undergraduate) Taught a large course (~120 students) on biological, cognitive, and developmental features of the age period 10-18; incorporated recent theory on the age period of emerging adulthood (ages 18-30) as an extended period of adolescence; included clinical theory and research as well as case studies to demonstrate the normal-abnormal continuum of development and mental health vs. psychopathology.

Instructor, Department of Child Development, Tufts University

Spring 2002 Course: Advanced Multivariate Statistics (Graduate) Taught advanced multivariate techniques to 15 graduate students and professionals. Course used research examples that combined clinical and developmental perspectives, focusing on clinical outcomes, to teach traditional as well as innovative multivariate analytic techniques. Course included instruction on longitudinal methods that assist in studies of intraindividual change (e.g., useful in evaluations of treatment effectiveness and studies examining changes in symptomology over time).

Instructor, Department of Psychology, Assumption College

Spring 2001 Courses: Abnormal Psychology and Personality Psychology (Honors, Undergraduate)
(1) Developed and taught two sections of Abnormal Psychology. Emphasized the “normal-abnormal” continuum. Provided an overview of the DSM-IV diagnostic categories. Stressed contextual and developmental elements of “abnormal” behavior. (2) Developed and taught an Honors Course in Personality Psychology that covered Psychodynamic, Post-Psychodynamic, Behavioral, Cognitive, Trait, Existential, and Humanistic conceptualizations of personality. Stressed the developmental and contextual elements of personality development. Highlighted current concepts in the field of personality psychology.

Instructor, Department of Human Development and Family Studies, The Pennsylvania State University

Summers 1998, 1999, 2000 Course: Developmental Psychopathology (Undergraduate) Developed a senior level course in developmental psychopathology that covered applications of the developmental psychopathology framework across the lifespan. Managed final projects which required students to meet with a community mental health providers and, in consultation, develop and provide for distribution mental health literature that reflected the developmental psychopathology framework and resources related to prevention of and interventions available for child and adolescent mental health problems.

Graduate Teaching Assistant, The Pennsylvania State University

Spring 1997 Course: The Transition to Adulthood (Undergraduate) Independently developed a course option for students who were interested in self-analysis as a method for understanding the relationship between pre-adult experience and adaptive functioning during the transition to adulthood. Assisted course instructor in the writing and grading of weekly quizzes. Assisted students in their completion of analytical term papers for submission to the course website.

Graduate Teaching Assistant, The Pennsylvania State University

Spring 1997 Course: Internship Mentoring (Undergraduate) Mentored senior level students who completed their

required internships. Responsibilities included grading of weekly diaries, student term papers, and additional assignments. Served as liaison between internship supervisors and course instructor.
